Tel Aviv, June 6 (RHC)-- Israel has announced it is shutting down a desert prison camp where Palestinian prisoners from Gaza say they were routinely beaten and tortured.

Last month, three Israeli whistleblowers who worked at Sde Teiman spoke to CNN. One whistleblower shared photographs that showed Palestinians being strapped down, blindfolded and held in diapers at the site.

On the CNN report, it was revealed that some prisoners had limbs amputated due to injuries sustained from constant handcuffing.
