Havana, June 12 (RHC) - Long jumper Hayla González reaffirmed herself as one of the great talents of Cuban athletics, by dominating her event this Wednesday at the Ciudad de Guadalajara athletic meeting with a personal best (6.85m).

For his part, his coach in the youth categories, Adonis Matos, was happy and recalled that his student was always very combative, although due to her small height (today 1.67m) the doors of the national team did not open easily for her. despite holding the titles of Cuba school and youth.
