Sanaa, June 24 (RHC)-- The Yemeni Armed Forces say they have conducted new operations against Israel-linked ships in nearby waters in support of Palestinian people and in retaliation for the U.S.-British aggression against the country.

Spokesman for the Yemeni army, Brigadier General Yahya Saree, made the announcement in a Sunday statement. "The naval forces of our Armed Forces carried out a second targeting operation against the ship Transworld Navigator in the Red Sea, using an uncrewed surface boat, which led to a direct hit against the ship," he said.

Transworld Navigator had been already attacked by Yemeni forces in the Arabian Sea with a number of ballistic missiles on Saturday.

"The missile force of our Armed Forces carried out an operation targeting the ship Stolt Sequoia in the Indian Ocean with a number of cruise missiles, and the operation has successfully achieved its objectives," Saree added in his statement.

He noted that the two ships were targeted after the companies owning them decided to violate the ban enforced by the Yemeni Armed Forces on the entry of ships to the ports in the occupied Palestinian territories.

The new operations came after earlier on Saturday, the Yemeni forces carried out a host of attacks targeting American and Israel-linked vessels, including the US aircraft carrier Eisenhower, which was hit for the second time.

In his Sunday statement, Saree said, "As part of retaliation for the American-British aggression against our country, the operations of the Yemeni Armed Forces forced the American aircraft carrier Eisenhower to leave the Red Sea."

He once again warned all maritime companies to avoid doing business with the occupying regime of Israel, adding that "their ships will be directly targeted in the operation zone of the Yemeni Armed Forces regardless of their destination."

He concluded by saying that operations carried out by the Yemeni Armed Forces will continue until the Israeli aggression against the Gaza Strip stops and the siege of the Palestinian territory is lifted.

Yemen's Armed Forces have been carrying out countless operations against Israel-linked ships or those heading towards ports in the occupied Palestinian territories since October 7, when the Tel Aviv regime began its genocidal war on Gaza.

Nearly 37,600 Palestinians have been killed, most of them women and children, and over 86,000 others sustained injuries in the brutal Israeli military onslaught against the coastal sliver.

The Yemeni forces have also conducted many operations against American and British vessels in response to deadly attacks by the United States and the UK against their country, which have been seeking to stop the forces' pro-Palestinian operations.
