

Hamas slams Biden administration for political and military support of Israel's genocidal war on Gaza

Gaza City, June 27 (RHC)-- Hamas says U.S. President Joe Biden's administration is responsible for the genocidal campaign in the Gaza Strip. The Palestinian resistance movement said Washington continues to lend political and military support to Israel to carry out further destruction and carnage in the besieged territory.

In a statement released in Gaza City, the resistance movement also lamented the death of family members of Ismail Haniyeh, the head of the Hamas political bureau, including his sister, in an Israeli airstrike on their home in western Gaza City.

“We in the Hamas movement hold the Biden administration accountable for the unrelenting genocide war against our Palestinian brethren and sisters in the Gaza Strip, as it continues to offer the Zionist regime and its criminal army unconditional political and military support to press ahead with its destruction and genocide in the Strip,” the statement read.

“In light of the continuation and escalation of these horrific massacres, we call on Arab and Muslim nations as well as freedom-loving people of the world to step up their actions, and push for an end to the aggression.”

Hamas urged the international community and the United Nations to assume responsibility for the crimes of Israel in Gaza, protect innocent civilians, and hold the leaders of the terrorist Zionist regime accountable for their crimes.
