Balah, central Gaza, on June 28. (Reuters photo)

Gaza City, June 30 (RHC)-- The Israeli regime continues its bloody and genocidal onslaught on the Gaza Strip by carrying out more air and artillery strikes against the blockaded territory.

The overnight attacks targeted Gaza City, Rafah as well as Nuseirat refugee camp, leaving nearly a dozen Palestinians, including four children, dead, according to reports published on Saturday morning.

In the Bureij refugee camp, Gaza's civil defense agency said three of its medics were killed by Israeli aircraft and 12 others wounded while they carried out rescue efforts.

The Israeli military bombed a home in Gaza City, killing at least four Palestinians and injuring at least 10 more, the Wafa news agency reported. Two children were among those killed in the strike, which hit the Abu Khadra family home on al-Wehda Street in the center of Gaza City.

Earlier, Israeli fighter jets targeted a residential home in Gaza City's Yarmouk neighborhood, killing two children and injuring at least five others.

On the ground, heavy fighting is underway between Israeli troops and resistance fighters.

Israeli soldiers and tanks attacked Gaza City's Shujayea neighborhood, ordering residents to leave.

UN spokesperson Stephane Dujarric said the Israeli ground offensive in Shujayea neighborhood forced the displacement of "at least 60,000" residents.

Resistance forces launched a mortar attack on Israeli forces in the same area, leaving many casualties among the occupation troops.

The Tel Aviv regime has killed at least 37,765 Palestinians and injured over 86,429 since the start of the offensive. Thousands more are also missing and presumed dead under rubble.
