

Vienna demonstrators demand end of Israeli genocidal attacks on Gaza

Anti-war demonstrators in Vienna protest Israel's war of aggression on Gaza (File photo)

Vienna, June 30 (RHC)-- Dozens of anti-war protesters have taken to the streets of Austria's capital, Vienna, to express their support for the people of Gaza and condemn Israel's war on the besieged and bombarded territory.

The demonstrators carried Palestinians flags and banners demanding a ceasefire in Gaza, footage shared online by the European Palestinian Media Center showed.

Hezbollah is preparing for different scenarios as the low-level conflict between it and Israel threatens to spin out into something larger.

Feeding the idea of Israel shifting military focus from Gaza to Lebanon have been statements from officials including Prime Minister Benjamin Netanyahu who said on Sunday that Israel is winding down operations in Rafah and will redirect to Lebanon.

Serious Israeli military action on Lebanon would drag in regional and possibly international actors.
