

Cuba's Ministry of Foreign Affairs rejects provocative and slanderous statement from Argentina

Havana, July 2 (RHC)-- The Ministry of Foreign Affairs of the Republic of Cuba rejects the statement of the Office of the President of the Argentinian Republic that tries to manipulate the events that occurred on June 26th in Bolivia to try to justify its provocative position that It interferes in the internal affairs of other States, while at the same time it places itself totally isolated in the region in relation to the coup attempt in Bolivia.

Once again, the Argentinian government resorts to a slanderous speech that seeks to divert attention from the serious problems that its policies generate for its people and in its relationship with other States. (Source: Cubaminrex)
