Ramallah, July 18 (RHC)-- The Israeli military has dropped leaflets in the Jenin refugee camp in the occupied West Bank, threatening to kill wanted young men if they do not surrender themselves, the Wafa news agency reports.

The leaflets, dropped via reconnaissance aircraft, were dropped near a mosque on Mahyoub Street in the camp, according to Wafa.

The Jenin area has long been a centre of Palestinian resistance to Israel's occupation in the West Bank and has witnessed some of the most intense fighting between Israeli forces and Palestinian armed groups since October 7th last year.
