

Eyewitnesses say there are bodies everywhere as Israeli forces bomb Gaza school

Gaza City, August 4 (RHC)-- Eyewitnesses to an Israeli bombing of a school in Gaza say "there are bodies everywhere."

Al Jazeera's Anas al-Sharif was reporting on an Israeli attack on the Hamama School in the Sheikh Radwan neighbourhood in Gaza City when fighter jets returned to bomb the school again:

“While we were documenting the massacre inside this school, the displaced people received calls from the Israeli military ordering them to evacuate the building immediately, because it was going to be targeted again,” he said.

“Bodies are everywhere and the medics are retrieving them and body parts everywhere ... it’s a big massacre.” At least 17 Palestinians were killed in the attack.
