

Haitian gangs have killed over 3,600 people in first half of 2024

United Nations, September 28 (RHC)-- In Haiti, the United Nations says over 3,600 people have been killed in gang violence in the first half of this year.

Earlier this week, Haiti's interim Prime Minister Garry Conille said his country is "nowhere near winning this" as he addressed Haiti's spiraling security and humanitarian situation on the sidelines of the UN General Assembly.

Despite the dire situation, the group Haitian Bridge Alliance said the Joe Biden administration chartered yet another deportation flight with Haitian asylum seekers earlier this week.
