

Press groups demand Israel allow for evacuation of critically injured Al Jazeera reporters

Gaza City, October 21 (RHC)-- In news from Gaza, Al Jazeera camera operator Fadi al-Wahidi remains in a coma after he was shot in the neck by an Israeli sniper while reporting in Jabaliya earlier this month.

Israeli authorities have blocked the evacuation of al-Wahidi from Gaza, as well as that of fellow Al Jazeera cameraman Ali al-Attar, to receive urgently needed medical treatment.

Press freedom groups are demanding that the two Al Jazeera camerapeople be allowed out of Gaza in order to survive.
