Indonesia urges UN Security Council to act immediately to end Gaza war

Image not found or type unknown

United Nations, October 22 (RHC)-- The Foreign Ministry of Indonesia has called on the UN Security Council to take "decisive action" to end the war on Gaza "without delay," decrying attacks on healthcare facilities in the besieged Palestinian territory.

"The attacks targeting healthcare facilities and workers in northern Gaza, including the Indonesian Hospital, are clear violations of international law, international humanitarian law and fundamental human rights," the ministry said in a statement.

The Israeli military's weeks-long siege of northern Gaza has pushed many to the verge of starvation amid unrelenting air and ground attacks and the mass expulsion of residents.
