New York, October 26 (RHC)-- Donald Trump is facing a new accusation of sexual misconduct. Stacey Williams worked as a model in 1993, when she says Donald Trump repeatedly groped her at Trump Tower. She was introduced to Trump by the now-deceased serial sexual predator and trafficker Jeffrey Epstein.

Stacy Williams described the assault as a “twisted game” that had been orchestrated by Trump and Epstein. She detailed the encounter this week on a call organized by the group Survivors for Kamala, which also featured Hollywood actor Ashley Judd and Anita Hill.

Of course, Trump’s campaign denied the allegations.
