

U.S. lawyers call on Attorney General Merrick Garland to investigate Israeli killings of U.S. citizens

Washington, October 28 (RHC)-- Lawyers at the U.S. Justice Department called on Attorney General Merrick Garland to launch investigations into crimes against U.S. citizens committed by Israeli soldiers and settlers in the occupied West Bank, including the killing of the activist Ay?enur Eygi.

The open letter to Garland highlighted the hypocrisy in the department's refusal to acknowledge crimes by Israel while it has been outspoken against Russia's actions in Ukraine.
