The Hague, October 30 (RHC)-- South Africa has filed over 750 pages of evidence in its genocide case against Israel at the International Court of Justice in The Hague.

South Africa says the documents lay out how Israel is “promoting the destruction of Palestinians living in Gaza, physically killing them with an assortment of destructive weapons, depriving them access to humanitarian assistance, causing conditions of life which are aimed at their physical destruction, ... and using starvation as a weapon of war and to further Israel’s aims to depopulate Gaza through mass death and forced displacement of Palestinians.”

Over 30 countries and regional blocs are supporting South Africa’s case at the International Court of Justice at The Hague.
