

Report says Yemeni Armed Forces carried out five operations in Haifa, targeting six ships, in one year

Sanaa, November 1 (RHC)-- The Yemeni Armed Forces have published a report detailing a year of their operations against the Israeli regime as part of their support of Palestinian resistance movements.

The Yemeni forces carried out five operations in Haifa, in cooperation with the Islamic Resistance in Iraq, targeting six ships, two vital targets, and an important target, according to the report.

Haifa is home to sensitive Israeli facilities, including its seaport, airport, and three power plants. It also includes the Haifa Petrochemical Complex, one of the regime's most important and sensitive economic centers. The complex hosts many facilities that process and store petrochemical materials.

In occupied Yaffa, "Tel Aviv," five military targets were struck, an important target, "Ben-Gurion" airport, a vital target, a military base, and other "various targets," according to the report.

A vital target was targeted in occupied Asdod, and in Asqalan, a vital target and the industrial area were targeted. The Yemeni Armed Forces report said that, on 4 occasions, they targeted various sensitive and important military targets in the Zionist depth.

Lastly, occupied Umm Al-Rashrash, "Eilat," was targeted 19 times, targeting military, sensitive, and vital sites, the report concluded.

Yemeni forces have been carrying out numerous strikes against the occupied Palestinian territories since October 7 last year, when the Israeli regime began the war on Gaza, killing more than 43,000 Palestinians to date.

The forces have also been targeting Israeli ships and vessels heading towards or away from the ports of the occupied territories as a means of trying to force the regime into stopping the war and a siege that it has been simultaneously imposing on Gaza.

The U.S., on the other hand, has been staging attacks against Yemen as a means of trying to stop these operations. The Yemeni Armed Forces say they won't stop the attacks until Israel stops its ground and aerial offensives.

Abdul-Malik al-Houthi, leader of the Ansarullah resistance movement, has said it is "a great honor and blessing to confront America directly." Additionally, the Islamic Resistance in Iraq has been launching attacks on Israeli targets ever since the occupying regime started the genocidal campaign in Gaza.
