

Canadian peace activists hold Parliament Hill protest to demand Israel arms embargo

Ottawa, December 5 (RHC)-- In Ottawa, Canada, over 100 Jewish peace activists staged a sit-in protest Tuesday inside a parliamentary building, demanding Canada stop arming Israel. At least 14 protesters were arrested and issued trespass notices.

The Jews Say No to Genocide Coalition is demanding Canada cancel all active military export permits to Israel and close loopholes allowing weapons to reach Israel via the United States without requiring permits. They're also calling on Canada to halt purchases of Israeli military hardware.
