

Israeli massacres across Gaza target flour line, wipe Al-Kahlout family off Civil Registry

Gaza City, December 11 (RHC)-- Multiple massacres carried out by Israeli forces across the war-torn Palestinian territory of Gaza has killed dozens of people since Monday, many of them children.

The attacks included an Israeli aerial bombardment on a flour distribution line in southern Rafah and strikes on central Gaza's Nuseirat camp.

In northern Beit Hanoun, separate Israeli strikes killed 25 people belonging to two households of the Al-Kahlout family, wiping the prominent Gaza family entirely from the civil registry.

Israel is also continuing its deadly assault on Gaza's beleaguered hospitals. Dr. Marwan al-Sultan, director of Indonesian Hospital in northern Gaza, called on international actors to help ensure the safety of health facilities after Israeli attacks injured patients and destroyed parts of the hospital.
