Caracas, January 7 (RHC)-- The President of Venezuela, Nicolás Maduro, denounced this Monday the complicity of the Argentine Government in violent plans to destabilize the peace of the Latin American

nation.

During the Working Meeting with the Sectoral Vice Presidents, the Executive Cabinet, High Military Command, Great Patriotic Pole, and Police Forces, the president stated that the Government of Javier Milei "is involved in violent plans to attack the peace of Venezuela, I denounce it!"

"They belong to a cult group, the hate cult, the Nazi one." "Milei is a sadist," stated Nicolás Maduro.

Referring to the Argentinian gendarme, Nahuel Gallo, who was detained while attempting to enter Venezuelan territory irregularly and is under investigation for links with representatives of the far-right, Nicolás Maduro specified that "it's a lie that he had a girlfriend here, a lover. No, no, that man has his wife and family in Argentina and directly the Argentine government is involved in violent plans to attack the peace of Venezuela. I denounce it. All those processes are judicialized, they are at a very high level of investigation and it is not up to me to give more details."

Meanwhile, the president added that thanks to popular intelligence, police intelligence, and military intelligence, 125 mercenaries from nearly 15 nationalities were captured, who were coming to carry out terrorist activities in Venezuela.

"We were waiting for them." "And they were coming from the south of America," said Maduro while denouncing that the captured mercenaries had specific plans to attempt to assassinate the executive vice president, Delcy Rodríguez.

Likewise, he held the U.S. empire responsible for the attempts to attack Venezuela, saying "neither by deceit nor by force will they dominate Venezuela again."

"Neither the oligarchy nor the American empire will be able to overcome us. Fascism is the child of darkness; we must be the light that illuminates our homeland."
