

Far-right group Betar says it handed Trump Administration thousands of names of deportation targets

Washington, March 18 (RHC)-- The far-right, pro-Israeli group Betar has taken credit for Mahmoud Khalil's arrest and boasts it has a "deportation list" containing "thousands of names" that it sent to the Trump administration.

Meanwhile, Swarthmore College in Pennsylvania has suspended one student as it issued sanctions earlier this month for 15 pro-Palestinian student protesters. Swarthmore announced the penalties days after Trump threatened to rescind federal funding for schools that allow so-called illegal protests.
