

Israel kills at least 85 more in Gaza strikes and re-occupies Netzarim corridor

Gaza City, March 20 (RHC)-- Reports show that within the last 24 hours, more than 85 Palestinians were killed by Israeli forces in the cities of Beit Lahiya, Rafah and Khan Yunis, with many more being wounded.

The deaths come as Israeli forces re-occupied the Netzarim corridor on Thursday, once again cutting off northern Gaza from the rest of the strip. The latest statistics put the number of Palestinian victims of the Israeli genocide in Gaza at 49,547 dead and 112,719 wounded, according to Palestinian Health Ministry

Israel restarted its genocidal activities in Gaza after unilaterally abandoning the ceasefire agreement on Tuesday. Within the past three days, Israeli forces have killed more than five hundred Palestinians, with two-thirds of them being women and children.

Footage shared on social media has shown entire families being massacred, with multiple videos of dead babies who were killed by Israeli forces. According to Defense of Children International Palestine, 183 Palestinian children were killed just on the 18th of March.

While Israeli forces intensify their genocide in Gaza, political tensions have also been rising among Israeli settlers. In occupied Western Jerusalem Al-Quds, thousands of Israeli settlers took to the streets calling for the government to focus on releasing the remaining captives, arguing that the continuation of the war would put their lives in more danger. The protesters were met with force by Israeli security forces.
