

Civilians Reportedly Wounded in New U.S. Airstrikes on Syrian Border

Damascus, November 20 (RHC)-- The United States has carried out new airstrikes on the Syrian border with Turkey. A Pentagon statement claims the attack killed two militants from the Nusra Front, in the fourth such strike on the al-Qaeda group since September.

The United States also claims to have hit a Khorasan Group storage facility, but residents say at least six civilians were wounded in an adjacent home.
