Panama, March 12 (RHC-PL) -- Foreign investment opportunities in Cuba stand out today among other attractions at Expocomer 2015, which this year celebrates the centenary of the Chamber of Commerce, Industry and Agriculture of Panama.

In statements to Prensa Latina, the general secretary of Cuba's Chamber of Commerce, Omar Fernandez, stated that as part of his speech at that event, a guide for investment opportunities in Cuba will be released.

This tool is part of a strategy that also includes a new Foreign Investment Law.

Fernandez also gave details of Cuba's participation in Expocomer, attended by the main exporters of products and services from the Caribbean nation.
