

Russia Calls for Collective Efforts to Solve Global Conflicts

Moscow, April 10 (Xinhua) -- Russia's involvement in settling global and regional conflicts is an approach aimed at gathering international collective efforts, Foreign Minister Sergei Lavrov said Friday.

"All approaches, which Russia currently promotes, envisage collective efforts in the search of resolutions and are never unilateral dictatorship," Lavrov said at a meeting. The minister expressed hope that such an approach would also gain a foothold in the settlement of the Ukraine crisis.
