

Pakistani President Stresses Enhanced Pakistan-Cuba Ties

Islamabad, June 30 (RHC) — Pakistani President Mamnoon Hussain says bilateral trade between his country and Cuba has increased substantially during the past years.

Hussain has underlined the need for building a mutually beneficial relationship between Pakistan and Cuba, during a meeting on Monday with Pakistan's Ambassador-designate to Cuba, Kamran Shafi.

The President emphasized on further strengthening political, economic and cultural bonds between the two countries. He stated that while bilateral trade between Pakistan and Cuba has increased substantially during the past years, it is still not at par with the existing potential.
