

# *5,000 Evacuated After Chemical Train Derails in Tennessee*

---

Knoxville, July 2 (RHC)-- In the U.S. state of Tennessee, more than 5,000 people have been evacuated after a train carrying a flammable, poisonous chemical derailed and caught fire near Knoxville.

The train was reportedly carrying liquefied petroleum gas and a toxic product used to make plastics. Seven firefighters were hospitalized after breathing in the fumes.
