

Blasts Rock U.S. Oilfield Chemical Supplier

Houston, August 15 (RHC)-- Several blasts in the United States have made a huge fire at an oilfield chemical supply company located north of Houston, Texas.

The DrillChem Manufacturing facility in Conroe was the scene of the explosions on Friday.

Officials announced that the fire is under control and no one was injured in the incident. It took about two hours to bring the fire under control, the Associated Press reported.

DrillChem Manufacturing produces sealants, shale inhibitors and lubricants has locations in Minot, North Dakota; Midland, Texas; and Denver, Colorado.
