

Serbian parliament president tours tech center in Havana

Havana, Sep 5, (RHC), – The president of the Serbian Parliament, Maja Gojković, visited on Saturday the Center for Genetic Engineering and Biotechnology and the historic center of Havana, as she concluded an official visit to Cuba.

In statements to Cuban media, the parliamentary leader stressed the necessity to strengthen diplomatic links between Cuba and Serbia, and to boost commercial and cooperation relations in all fields. Likewise, she reiterated Serbia's support for Cuba in its fight against the US economic blockade and thanked the island's authorities for their friendship and solidarity.
