

Trade Exhibition of Congress on Orthopedics and Traumatology Opens in Camagüey

Camagüey, September 23 (RHC)-- The trade exhibition of the Cuban Congress on Orthopedics and Traumatology was officially inaugurated Wednesday in Camagüey province, with the participation of Cuban and foreign companies that commercialize inputs, medications and technologies for the health discipline.

Cuban groups participating in the exhibition include the prestigious Frank País International Orthopedics Complex, and the business groups FARMACUBA and LABIOFAM.

Foreign Participants include the Panamanian company BRIDELPA S.A., Mexico's SOLCO, with 14 years of experience working with Cuba and the French company ProSteel, which commercializes products patented by prestigious Cuban orthopedist Rodrigo Álvarez Cambras.
