

Two Suicide Bomb Attacks in Nigeria Kill 15

Abuja, November 19 (RHC)-- In Nigeria, two suicide bomb attacks killed as many as 15 people in a market in the northern city of Kano on Wednesday, less than 24 hours after another suicide bomb killed more than 30 people at a crowded market in the northeastern city of Yola.

Nigerian authorities say the militant group Boko Haram is likely responsible. This comes as a new report released this week says Boko Haram was responsible for more attacks than any other non-state militant group, including ISIL.
