

ISIL Publishes Photo of Bomb They Say Brought Down Russian Plane

Cairo, November 19 (RHC)-- Members of ISIL published a photo in their on-line magazine Wednesday which they say shows the bomb that brought down the Russian plane over the Sinai Peninsula in Egypt, killing all 224 people on board.

This comes one day after Russian authorities confirmed a bomb brought down a plane. An accompanying article in the magazine said the bombing was punishment for Russia's airstrikes in Syria.
