

Israeli Fighter Jets Bomb Besieged Gaza Strip

Gaza City, December 14 (RHC)-- Israeli war jets have carried out a number of airstrikes against the Gaza Strip in yet another act of aggression against the besieged coastal territory. The airborne assaults, which were launched in the early hours of Monday morning, reportedly hit several targets including military posts in the northern and central parts of the Palestinian blockaded enclave.

According to local Palestinian media, Israeli Apache helicopters were also involved and launched at least two missiles at the northwestern part of the strip, targeting the Ezzedine al-Qassam Brigades, a military wing of the Palestinian Hamas resistance movement.

The Israeli army frequently launches airstrikes against various areas in Gaza.

Over 2,200 Palestinians, including 577 children, were killed in a 50-day Israeli military aggression against Gaza, which started in early July and ended on August 26 last year. Over 11,100 others, including 3,374 children, 2,088 women and 410 elderly people, were also injured in the offensive.
