

Saudi-Led Coalition Pounds Yemeni Capital After Ending Ceasefire

Sanaa, January 4 (RHC)-- The Saudi-led coalition in Yemen has destroyed a gas station and house in a series of airstrikes on the capital Sanaa. The bombing came as the U.S.-backed coalition announced an end to a ceasefire declared earlier this month.

Nearly 6,000 people have been killed since the Saudi-led coalition began bombing Yemen in March, about half of them civilians.
