## **Brazilian Company Odebrecht Expands Operations in Cuba**

Havana, February 2 (RHC)-- The Brazilian Odebrecht Infrastructure Works Company will increase operations in Cuba after receiving authorization from local authorities to become a user of the Special Development Zone in the western Mariel Bay area, plus another two contracts in the sugar and civil ero-nautical sectors.

The Brazilian company was officially notified in January that it could operate in Mariel, offering engineering and construction services to potential investors under a 15-year license, which can be extended.
