

Venezuelan Workers Protest Privatization Draft Bill

Caracas, Feb 23 (RHC) The Union of Bolivarian Workers (CTB) has convened a rally in front the National Assembly of Venezuela against a draft bill on National Production. The right-wing initiative seeks to re-privatize nationalized enterprises.

Carlos López, general coordinator of CTB Union, said the privatization project of February 11 is looking to the re-privatization of the entire socialist system. He warned that, if approved, the entire body of basic enterprises will return to private owners.
