

Experts in Clinical Lab Quality To Meet in Havana

Havana, March 4 (RHC-PL) -- Some 250 Cuban specialists and 150 professionals and guests from Mexico, Germany, Chile, Spain, Argentina, France and the United States are expected to exchange views on the quality of processes in clinical labs during the International Symposium on Clinical Lab Quality, to be held at the Havana Convention Center on March 9 through the 11.

Dr. Enrique Abraham Marcel, who leads the organizing committee for the event, said in a communique posted on the Infomed website, said the symposium will make emphasis on methodological, theoretical and practical aspects.

A National Congress on Clinical Pathology will also be held on the sidelines of the Symposium.
