

Terrorists Behind Attacks in Brussels Identified

Brussels, Mar 23 (RHC)--- Two brothers -- Khalid and Brahim El-Bak-raoui -- were identified as the perpetrators of last Tuesday's suicide attacks in Brussels, says Belgium Attorney General Frédéric Van Leeuw.

Brahim set off the bomb at the airport and Khalid did the same thing in Malbik subway, while the special forces manhunt arrested Najim Laach-raui, one of the suspects.

National and international railroad traffic are gradually back on the tracks, yet Zaventem Airport remains closed and the operations company says they will decide when to open the air terminal. The subway is currently running with restrictions.
