

Venezuelan Diplomat Praises Cuba's Permanent Support

Caracas, July 30 (RHC)-- Venezuela's ambassador to Bolivia Cris González praised Cuba's permanent support for and solidarity with the Venezuelan people, their constitutional leaders and the Bolivarian Revolution started by late leader Hugo Chávez.

Speaking at a ceremony honoring Cuban health professionals who are offering their services in Bolivia, Venezuela and throughout Latin America and the world, González described as 'indispensable' the work being carried out by Cuban professionals in Venezuela, as part of the Barrio Adentro program launched by the Bolivarian government.

She added that just as they do in all the other countries, the Cuban physicians travel all across Venezuela to treat patients in poor, remote communities.
