# Car Bomb Kills 22, Injures 20 in Libya's Benghazi

Tripoli, August 3 (RHC)-- At least twenty-two people have been killed and twenty more injured in a car bombing attack that targeted security forces in Libya's Benghazi.

Libya has been struggling to contain Takfiri terrorists, who have been expanding their presence in the country following the overthrow and death of Libyan leader Muammar Gaddafi in 2011.

Taking advantage of the political chaos in the country, Daesh took control of Sirte in June 2015, nearly four months after it declared presence in the city, making it the first city to be ruled by the group outside of Iraq and Syria.
