

Fidel Castro Receives President of Bolivia

Havana, August 16 (RHC)--Bolivian President Evo Morales said that Fidel Castro is lucid as ever with his 90 years of age, and that his most pressing concerns and thoughts currently relate to food and life on the planet.

Following his meeting with the Cuban leader in Havana yesterday, Morales published four photographs of the encounter on his Twitter account.

Evo and Fidel celebrated the gold medal won by Cuban Mijaín Lopez in Greco-Roman wrestling at the Olympics.

The Bolivian head of state had a stop over in Cuba on his way to the Dominican Republic to attend the inauguration of President Danilo Medina.
