

Authorities ban Robeisy Ramirez from international boxing events

Jan 28, -- The *Cuban Boxing Federation* reported that Robeisy Ramirez will not attend international events for the next 6 months due to lack of proper preparation by repeated absences at training sessions.

The most recent analysis of the disciplinary committee of the *National Boxing School* revealed that Robeisy shows no optimum shape required to face the responsibility that he is assigned according to his rank.

He explained that the decision was necessary despite Robeisy being initially registered to the top of Friday against *Hussars of Poland*, as part of the *4th World Boxing Series* at the Havana's Sports City, where the featherweight division will be then defended by Marcos Forestal.

However, the official note states that the Olympic champion will remain within the national team and have the chance to rectify his position and resume the role expected for the fans, always worthy of a behavior attached to the discipline and exemplary.

The other Cubans to the top on Friday are flyweight Yosbany Veitía, light welterweight Yasnier Toledo, medium Ramón Luis and cruise Erislandy Savón.

Cuba's *Los Domadores* team won their previous 6 matches, displaying 18 points and is favorite to be ratified as Group B qualifying leader against a weak Polish team that is in the basement with just 1 point.
