

Poll shows Trump disapproval rises to near record

Washington, August 15 (RHC)-- U.S. President Donald Trump's disapproval rating has risen to 56 percent in a Fox News poll, following recent mass shootings in El Paso, Texas and Dayton, Ohio, which left 31 people dead.

The poll, released on Wednesday, found a 5 percentage point boost in Trump's disapproval rating from last month when 51 respondents disapproved the president's performance. In October 2017, Trump's disapproval rating reached a record high of 57 percent, according to Fox News.

Only 43 people contacted for the latest survey said they approve of Trump's job performance, down from 46 percent last month. According to the survey, Trump has the disapproval of a record number of men, at 53 percent, white men, 46 percent, and independents, 64 percent.

Some 1,013 registered voters nationwide were surveyed by researchers from Aug. 11 to 13 for the poll. The results have a margin of error of plus or minus 3 percentage points.

The poll comes at a time when Trump is under fire from critics for his anti-immigration rhetoric bordering on racism. Many have accused him of inciting violence following the recent mass shootings.

El Paso police said the 21-year-old suspect published a "manifesto" before his shooting that had anti-immigrant and racist rhetoric. The August 3rd massacre was one of three mass shootings in the United States within a span of a week, unleashing fresh alarm at the national crisis of gun violence.

The gunman, who was arrested, is white and linked to a "manifesto" posted online that described an attack in response to a "Hispanic invasion."
