

U.S. death toll from COVID-19 tops 39,000, more than 2,000 in one day

Washington, April 19 (RHC)-- The U.S. reported 2,009 coronavirus-related deaths over the past day, surpassing the 39,000 mark, according to John Hopkins University.

The total tally counted 39,095 deaths and 735,336 cases.

The U.S. continues to lead the world in the number of infections and deaths, followed by Spain and Italy.
