

As coronavirus reached the U.S., Trump administration tapped dog breeder to lead task force

Washington, April 24 (RHC)-- Reuters reports Health and Human Services Secretary Alex Azar tapped Brian Harrison, a longtime dog breeder with minimal public health experience, to head the U.S. coronavirus task force just as the first case of COVID-19 was detected in the United States in late January.

Before he joined HHS in 2018, Brian Harrison ran a company called Dallas Labradoodles -- a dog breeding service.
