

Saudi Arabia reimposes virus lockdown on Jeddah

Jeddah, June 6 (RHC)-- Saudi Arabia has announced a renewed lockdown in the city of Jeddah, gateway to the annual Muslim pilgrimage to Mecca, to counter a new spike in coronavirus cases.

"After reviewing the epidemiological situation and the high occupancy rates of intensive care departments, it was decided to take strict health precautions in the city of Jeddah for two weeks," starting from Saturday, the health ministry said.

The measures include a curfew running from 3 pm to 6 am, a suspension of prayers in mosques and a stay-at-home order for public and private sector workers in the Red Sea city whose airport serves Mecca pilgrims.
