

White House Coronavirus Task Force goes dark as Mike Pence violates social distancing

Washington, June 12 (RHC)-- The White House Coronavirus Task Force has not held a daily press briefing in over a month, even though about 800 to 1,000 U.S. residents are dying of COVID-19 each day.

Earlier this week, Vice President Mike Pence, the task force's chairman, tweeted — then deleted — a photo of himself greeting dozens of Trump 2020 campaign staffers, all of whom were packed tightly together, indoors, wearing no masks, in contravention of CDC guidelines to stop the spread of the coronavirus.
