

WHO reports record daily increase in global coronavirus cases

Geneva, July 24 (RHC)-- The World Health Organization (WHO) has reported a record increase in global coronavirus cases, with the total rising by 284,196 in 24 hours.

The biggest increases were from the United States, Brazil, India and South Africa, according to a daily report. Deaths rose by 9,753, the biggest one-day increase since a record high of 9,797 deaths in April 30th.

The previous WHO record for new cases was 259,848 on July 18. Deaths have been averaging 5,000 a day in July, up from an average of 4,600 a day in June.
