

Donald Trump Jr's Twitter account locked over COVID-19 video

New York, July 29 (RHC)-- Twitter Inc has said that it has reined in access to Donald Trump Jr' s account for 12 hours because a tweet he had posted violated the social media site's misinformation policy on COVID-19.

The eldest son of U.S. President Donald Trump had posted a video on Monday of doctors talking about the drug hydroxychloroquine, and the video was removed by Twitter. The video was also taken down by Facebook Inc and Alphabet Inc-owned YouTube after racking up millions of views, removed for breaking their rules on COVID-19 misinformation.
