

Cases of COVID-19 mounting across Europe as new restrictions enacted

Image not found or type unknown

Paris, October 19 (RHC)-- Cases of COVID-19 continue to surge across Europe. France has enacted a curfew across Paris and eight other cities. Belgium has closed bars and restaurants nationwide for a month.

The British government has given police increased authority to crack down on people who don't self-isolate after getting or being exposed to COVID-19. The foreign ministers of Austria and Belgium have tested positive for COVID-19, raising fears they may have caught it at a meeting last week with other European Union counterparts.
