Edward Snowden compares Belarus plane diversion to downing of Evo Morales's 2013 flight

Moscow, May 25 (RHC)-- The downing of the Ryanair flight by Belarus is drawing comparisons to the U.S.-backed downing of a flight by European officials in 2013 carrying Bolivia's then-President Evo Morales.

The Bolivian presidential plane was forced to land in Vienna after taking off from Moscow, amid rumors that NSA whistleblower Edward Snowden was aboard.
